+10dB Joins the Safer Building Coalition

+10dB Builds on Public Safety Expertise by Joining the Safer Building Coalition

Venice, Florida— October 5th, 2019 — +10dB, LLC announced today that it has formally joined the Safer Buildings Coalition. The Safer Buildings Coalition is an independent, non-profit organization focused on advancing policies, ideas and technologies that ensure comprehensive in-building communications capabilities for public safety personnel and the people they serve.

“By joining the Safer Buildings Coalition, +10dB is taking a proactive role as a provider of public safety in-building systems. Having early knowledge and awareness related to the public safety wireless industry, as provided through the events that the SBA hosts, is vital to our continuing success,” explained Connie Laguardia, Founder and Principal of +10dB.

###

Founded in 2019, +10dB is woman-owned, in-building communications engineering services firm, specializing in the design and implementation of the broad spectrum of constantly changing communications solutions in today's world. +10dB was founded with the mission to provide quality in-building wireless solutions to customers across verticals – including residential, education, healthcare, public safety, entertainment and commercial. With over 60 combined years in the design, engineering and support of in-building wireless systems, the +10dB leadership team are expert facilitators, providing clients with the highest caliber of design engineers, specifications, materials, contractors, and support.
